ADVERTISING ON FACEBOOK — HOW IT WORKS

Our managed advertising service provides peace of mind that your Facebook ads are being managed by professionals with a clear focus on results. There is a one-time set up cost and you select how much you want to spend per month and Adhesion handles the rest. The higher the budget you select the more traffic can be delivered to your website and Facebook page.

We will select the best targeting options to ensure your messages are reaching the right audience. Targeting options include geographical, gender, age, interests, behaviours and more. We create display ads which can be formatted in static, slider and video options. We provide a performance results report for you at the end of each month.

Adhesion can also set up a facebook page for you if required.

REMARKETING ON FACEBOOK — HOW IT WORKS

Remarketing targets customers that have previously visited your website, or specific sections of your website, or even specific pages. Custom audience lists are created and list membership rules can be defined for as little as 1 week or up to and over 12 months.

To set up remarketing audience lists, a Facebook 'pixel' is created and placed in the background of your website pages. Audience list members who have visited your website will then see your ads as they browse within Facebook. Custom audience lists can also be created from your customer databases.

“They really know what they are doing and get great results. I would definitely recommend them.”
