WHY ADVERTISE ON GOOGLE?

Customers are looking for your products and services online — Will they find you? If your businesses' visibility in Google is low, you are likely missing out on enquiry and sales leads.

How does AdWords Work?

Google AdWords is a fast and effective way for your business to be found in Google search results. AdWords works by placing your text ads next to targeted keywords relevant to your business, with the goal of attracting traffic to your website. Your ads can show in Google internationally, nationally, regionally or locally depending on your business' reach requirements.

The Adhesion advantage

Adhesion is a specialist online marketing agency with over 14 years experience, based in Auckland. Our team is Google trained and qualified to create and manage AdWords campaigns. We've developed a flexible range of managed Google advertising packages to suit small to medium NZ businesses wanting to maximise their opportunity in Google Search results.

Why don't I do it myself?

While AdWords offers powerful opportunities to connect with new customers, many businesses that try AdWords have difficulty capturing them. Many give up in frustration at the complexity of AdWords and not understanding why they are not yielding results.
