SEO IS A MUST-DO MARKETING IMPERATIVE

Google is the primary touch-point through which customers seeking information on products and services find and connect with businesses. Google is the no.1 online source of leads and sales enquiries for NZ businesses. If your website is not highly visible in Google, then you are missing out on business opportunities.

Achieving higher Google rankings:

- ✓ Knowledge of Google's complex algorithm composed of 200+ elements
- ✓ Both off-website and on-webpage factors
- ✓ Rankings are "earned" over time with consistent effort
- ✓ Sustainable "white hat" SEO strategy is best
- ✓ Expert SEO knowledge of the ever-changing online environment is required

Benefits of both SEO and AdWords

- ✓ SEO results take time, whereas AdWords can yield more immediate results
- ✓ Learnings and data from AdWords feed into SEO plan
- ✓ Maximising your visibility with both organic and paid listings will generate the largest share of traffic and opportunity for leads

“If you are looking for someone to increase your online profile, I can confidently recommend Adhesion.”
